

وب سرویس واسط نیرو مسلح برای سایت نوبت دهی

دو متد کلا داریم :

برای ورود Step1_Login

برای تایید ورود و گرفتن اطلاعات بیمار و نسخه Step2_GetPatientDataRequestn

متد اول	
آدرس:	ورودی
<code>https://MyDomain/Step1_Login/Step1_Login/Login</code>	<code>{ "status": 0, "message": "عملیات با موفقیت انجام شد", "captchaBase64": "String" }</code>

Curl نمونه

```
curl -X 'POST' \  
'https://MyDomain/Step1_Login/Step1_Login/Login' \  
-H 'accept: text/plain' \  
-H 'Content-Type: application/json' \  
-d '{  

```

خر裘جي	ورودي
<pre>{ "status": 0, "message": "string", "data": { "nationalNumber": "string", "name": "string", "lastName": "string", "birthDate": "string", "bimehEndDate": "string", "isCovered": 0, "prescribeItemsList": [{ "centerName": "string", "doctorName": "string", "trackingCode": "string", "message": "string", "doctorSpecialty": "string", "hid": "string", "patientComplaintCode": "string", "patientComplaintDesc": "string", "nationalNumber": "string", "prescriptionDate": "string", "nomedicalSystem": "string", "medicalSystemType": "string", "cancellation": "string", "cancellationCode": "string", "detailList": [{ "terminology": "string", "code": 0, "prescriptionTypeCode": "string", "fullName": "string", "prescribeCount": 0, "presentedCount": 0, "consumption": "string", "consumptionDesc": "string", "trackingCode": "string" }] }] } }</pre>	<pre>} , "captchaAnswer": "string" , centerId": 0" , "nationalNumber": "string" "trackingCode": "string" {</pre>

```
"consumptionInstruction":  
"string",  
    "consumptionInstructionDesc":  
"string",  
    "emergency": 0,  
    "description": "string",  
    "creationDate": "string",  
    "prescribeServiceUuid": "string",  
    "bulkId": 0,  
    "otc": "string",  
    "shouldSendToEsalat": "string"  
}  
]  
]  
}  
]  
{
```

```
curl -X 'POST' \  
'https://MyDomain/Step2_GetPatientDataRequestn/Step2_GetPatientData/GetData' \  
-H 'accept: text/plain' \  
-H 'Content-Type: application/json' \  
-d '{  
"captchaAnswer": "string",  
"centerId": 0,  
"nationalNumber": "string",  
"trackingCode": "string"  
}'
```

برای دفعات بعدی فقط پارامتر captchaAnswer را خالی بگذارد
